

Take the First Step Today

Support is here. Denver Recovery Group walks with you through every stage of recovery.

Starting opioid treatment can feel overwhelming. Denver Recovery Group offers supportive, judgment-free care at clinics throughout Colorado.

What to Expect When You Start Methadone Treatment

1

Intake and Personalized Plan

We take time to understand your medical history, current needs, and goals for recovery. This process helps us build a personalized plan that works for you.

2

Begin Medication and Therapy

Once your plan is in place, we begin treatment, counseling, medication and therapy

3

Ongoing Care and Support

Recovery takes time. Our team checks in regularly to adjust your care plan and ensure you're supported every step of the way.
